

Dear friends,

The Phystech-School of the LPR MIPT invites school students of 9-12 grades to take part in the Forth Season of LPR Cup!

Each week we give you one problem and after 7 days its solution. During this period, 2 hints are published. The problems will be both short and long — as at International Olympiads.

1. A link to the Cup website: <http://en.lpr-olimp.ru/> .
2. Rules of our Olympiad are here: <https://en.lpr-olimp.ru/rules>
- 3.Registration: <https://clck.ru/34AELb>. After the registration you will see the links and codes of Google classes where students are supposed to upload their solutions.
4. The telegram channel: <https://t.me/lprcupworld> There will be all the important announcements from the organizers and the jury. In the same channel, it will be possible to communicate with other participants.

Yes, all communication will be in telegram. This is the best messenger in the world. You will realize it when you see how many incredible stickerpaks it has.

The start of the Olympiad is Saturday, April 22! But you can join anytime.

For any questions you can write to phd4mipt@gmail.com
